Congoleum[®]

A nursery room with a grey crib, a grey chair with a pink cushion, a wooden side table with a teddy bear, and a colorful rug. A green vertical bar is overlaid on the left side of the image.

LIFE *is about* MOMENTS

*L*ife is messy, but AirStep
by Congoleum is easy to
maintain and live with so you
can get back to enjoying
life's moments.

Live the AirStep Life.

On Trend

Our design experts meticulously seek out cutting edge trends then distill and adapt them to create the most stylish flexible flooring available.

Practical

A fully-sealed floor is a clean floor. Many flooring choices have seams that allow water, dirt and bacteria to seep under the floor causing it to show wear and harbor germs, but AirStep is a single solid sheet making a practically impermeable surface that installs over many varied subfloors.

Easy to Live With

AirStep with Scotchgard Protector™ repels dirt and mess for guaranteed easy cleanability.

Innovative

AirStep flexible floors are manufactured from domestically-sourced materials in the USA under stringent quality controls. Our products meet or exceed low-emission standards for better indoor air quality as certified by Floor Score.

Table of Contents

- 2** Live the AirStep Life
